

Card.tsx

HTML struktūras kļūdas:

```

return (
  <StyledCard
    onClick={() => {}}
    to={` /category/${strCategory.toLowerCase()} `}
  >
    <Image src={strCategoryThumb} alt={strCategory} />
    <Description>
      <h3>{strCategory}</h3>
      {strCategoryDescription}
    </Description>
  </StyledCard>
);
```

Vajadzētu noņemt teksta pasvītrojumu un <a> tag defaulkto formatējumu no child elementiem (text-decoration)

Nevajadzīgs css rule:

```
const Description = styled.p`
  display: -webkit-box;
  -webkit-line-clamp: 3;
  -webkit-box-orient: vertical;
  overflow: hidden;
  padding-right: 2rem;
`;
```

Plus, ja Tu izmanto -webkit prefixus, jābūt izmantotiem arī defaultajiem css rules (line-clamp).

CardMeals.tsx

Sintakses kļūda, plus tas pats kas iepriekšējā vietā par display: box un webkit prefixiem:

```
const Description = styled.div`
  display: -webkit-box;
  -webkit-line-clamp: 1;
  -webkit-box-orient: vertical;
  text-align: center;
  overflow: hidden;
  max-width: 16rem;
  position: absolute;
  z-index: 2;
`
```
